

The Popular Models of Mobile Concrete Batching Plant

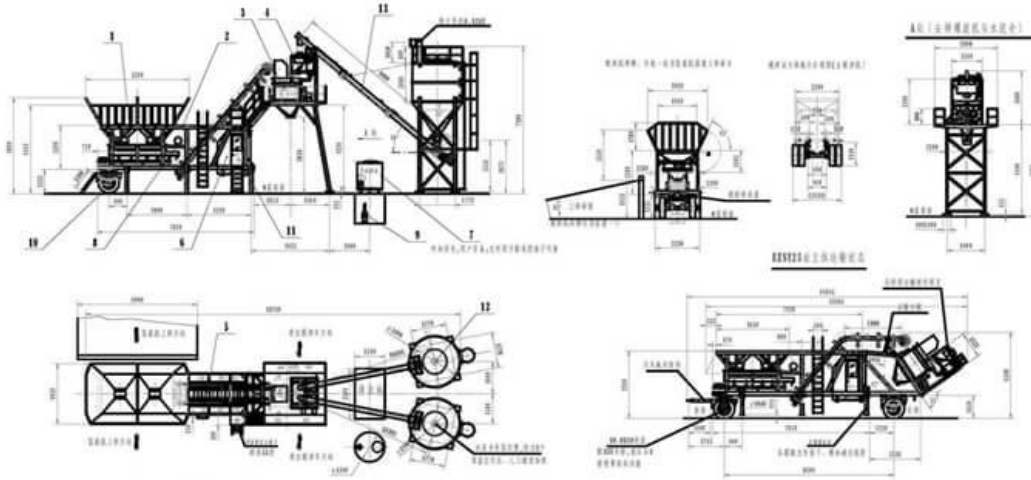

Abstract: Why do you need a mobile concrete batching plant? It can be moved to any places where it is needed. Haomei mobile concrete plants has four models: YHZS25, 35,60 and 75. Buy a one to expand your business.

YHZS25 Mini Mobile Batching Plant

YHZS25 mobile concrete plant is an all-in-one concrete plant. By absorbing new technologies from overseas and domestic, the mobile concrete batching plant has such characteristics as accurate weighing, even and efficient mixing, fast and clean delivery, etc.

YHZS25 Mobile Concrete Batching Plant

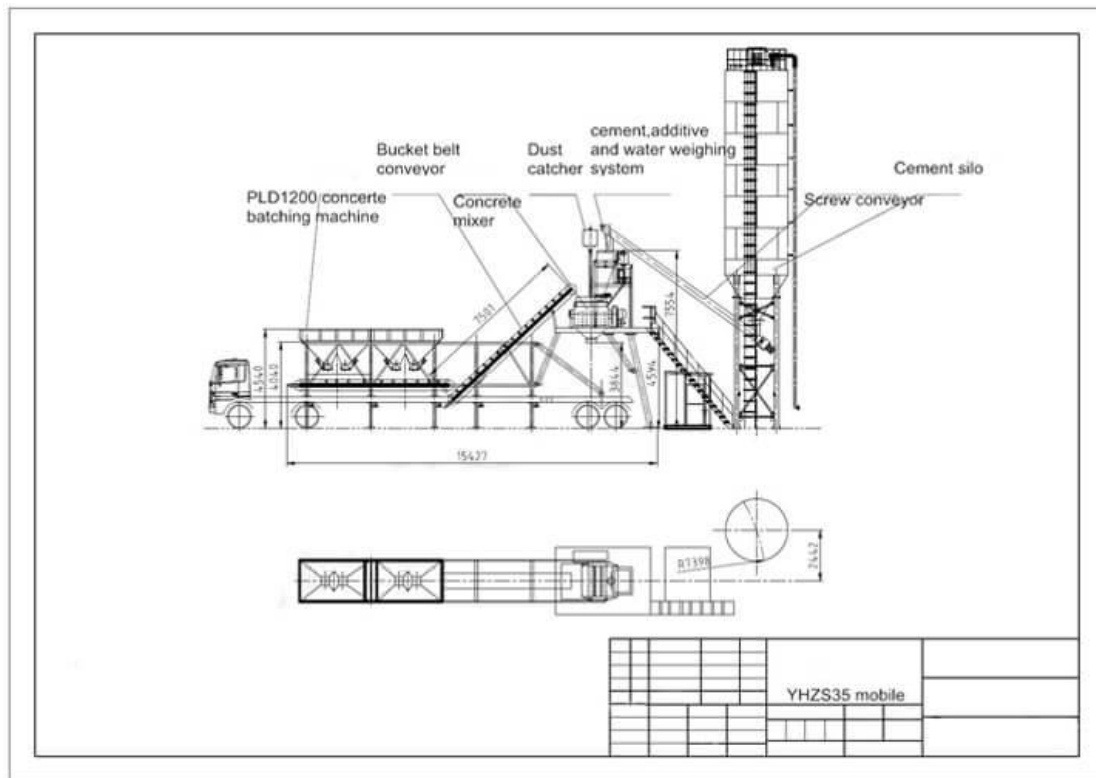

The Technical Parameter Of YHZS 25 Mini Mobile Concrete Batching Plant

Specification	Unit	Value
Productivity	m ³ /h	25
Weighing scale Concrete	kg	2000
Weighing scale Cement	kg	510
Weighing Scale Water	kg	150
Weighing Scale Liquid Additive	kg	15
Overall Power	kw	About 55
Power Source	V/ HZ	380/50
Discharge Height	m	3.8
Overall Weight	t	13(cement silo not included)
Trail speed	km/h	≤40
Specification(LxWxH) During work	m	17x3.6x8.2
During transportation	m	17.6x2.4x4.35

YHZS 35 Small Concrete Batch Plant

YHZS35 Mobile Concrete plant is a completely portable, productive, reliable, and cost effective piece of equipment used to produce batches of concrete at most any location. All its parts are installed on a transport chassis. The productivity of 35m³/h is a popular choice for small projects.

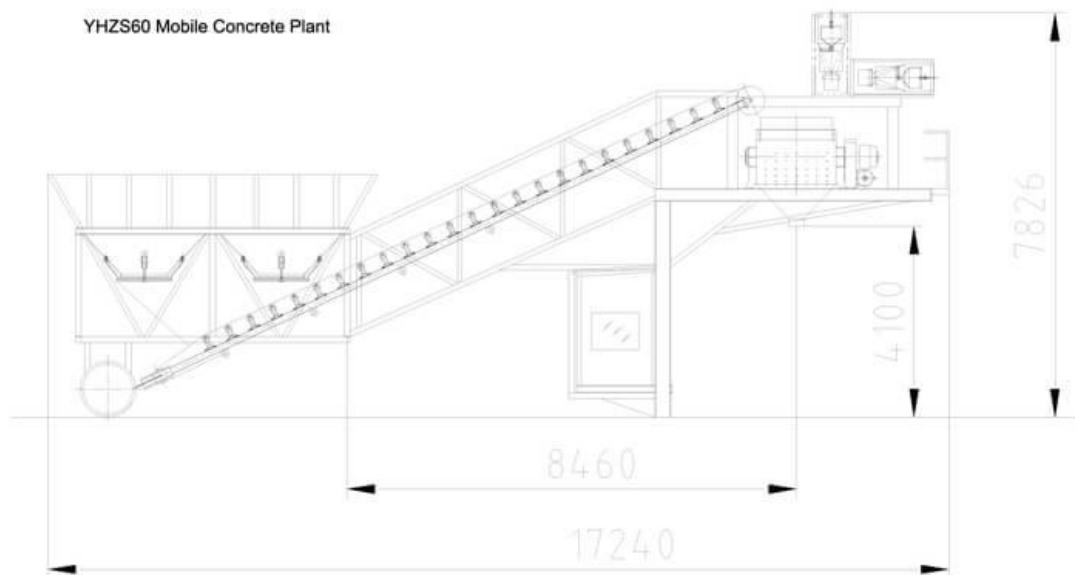

The Technical Parameter of YHZS35 Small Concrete Batching Plant For Sale

Specification	Unit	Value
Productivity	m ³ /h	35
Weighing scale Concrete	kg	2500
Weighing scale Cement	kg	600
Weighing Scale Water	kg	300
Weighing Scale Liquid Additive	kg	20
Overall Power	kw	About 70
Power Source	V/ HZ	380/50
Discharge Height	m	3.8
Overall Weight	t	17(cement silo not included)
Trail speed	km/h	≤40
Specification(LxWxH) During work	m	17.3x3.4x7.4
During transportation	m	17x2.4x4.3

YHZS60 Mobile Concrete Plant

YHZS60 mobile mixing plant is the most time efficient and cost-effective fully mobile concrete batch plant available today. All the parts are installed on a transport chassis. At the job site, it can be operational in less than 4 hours.

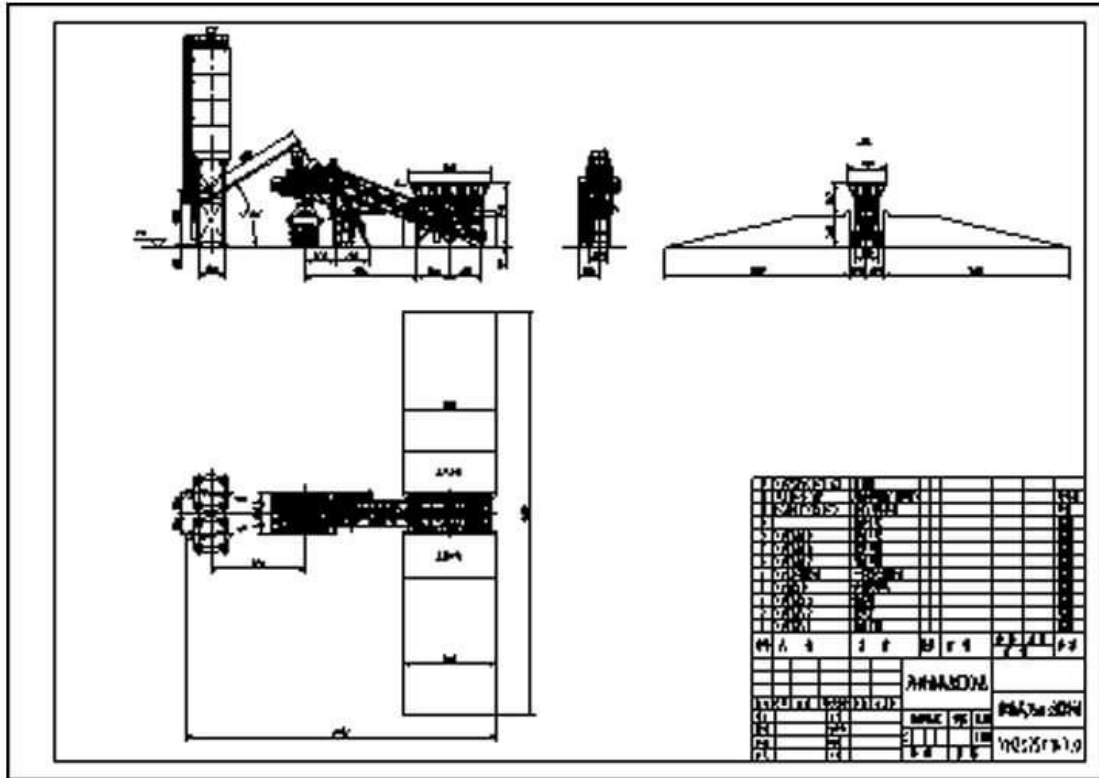

The Technical Parameter of YHZS 60 Mobile Batching Plant For Sale

Specification	Unit	Value
Productivity	m ³ /h	60
Weighing scale Concrete	kg	3000
Weighing scale Cement	kg	720
Weighing Scale Water	kg	360
Weighing Scale Liquid Additive	kg	36
Overall Power	kw	About 85
Power Source	V/ HZ	380/50
Discharge Height	m	3.8
Overall Weight	t	21(cement silo not included)
Trail speed	km/h	≤40
Specification(LxWxH) During work	m	17x3.6x8.2
During transportation	m	17.6x2.4x4.35

YHZS75 Portable Concrete Plant

YHZS75 batching plant belongs to a large-sized one among four models with capacity of 75 m³/h. It is completely mobile and travels as a single load of freight including dust collection, saving you transportation cost.

Specification	Unit	Value
Productivity	m ³ /h	75
Weighing scale Concrete	kg	3750
Weighing scale Cement	kg	900
Weighing Scale Water	kg	450
Weighing Scale Liquid Additive	kg	45
Overall Power	kw	About 105
Power Source	V/ HZ	380/50
Discharge Height	m	3.8
Overall Weight	t	25(cement silo not included)
Trail speed	km/h	≤40
Specification(LxWxH) During work	m	18.1x3.6x8.2
During transportation	m	18.6x2.4x4.35

Why Choose Haomei Mobile Concrete Plant

1. 30 years experience and continuous R&D investment.
2. Professional response to your questions in the first time.
3. Plant is completely erected and tested at the factory prior to shipping.

4. It only takes 4-5 hours to start working when move from one place to another place.
5. Dynamic display on a computer screen is helpful to operator to adjust the production technology parameters.
6. Foundation is not needed in most cases.
