

Sicoma Twin Shaft Mixer Manual

What Is a Sicoma Mixer

Sicoma twin shaft mixer is renowned for its advanced design. The excellent performance makes it popular in the concrete industry as well as industrial Plants (waste treatment, chemical industry, glass industry). The capacity is 2.0-4.0 m³/batch. Each batch take 40-45 seconds.

Features of Sicoma Concrete Mixer

- High mixing uniformity and mixing quality. The powerful compulsory spiral mixing action throws particles from each side of the mixer towards the center where they combine.
- Durability. The outer 70% of the lined surface is rarely touched by concrete.
- Super stability. **Unique monitoring system** to monitor the running conditions of gearbox, hydraulic door opening and lubrication pump.
- Multiple pipes water spraying system to ensure fast and thorough mixing.
- **Temperature Humidity Tester** gives highly accurate dynamic material temperature and humidity.
- High pressure cleaning system.
